EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife. Please see our website for the latest information: <http://www2.epa.gov/goldkingmine>  
Regular updates will be posted as they are available.

Name: Rob Haney  
Email Address: rhaney@marsystemsinc.com  
Comments: This email is directed to Ms. Gina McCarthy concerning the Gold King Mine discharge. My firm manufactures a water treatment media SPECIFICALLY designed to remove heavy metals. It is a single use media that will pass the TCLP test so can go to non-hazardous disposal. I've reached out to several Region 8 personnel as well as state officials in Utah and New Mexico but no one seems to be interested in talking with me. How can I get me firm included in discussions for cleanup options? Thank you, R. Haney
